SUMMER NEWSLETTER 2025

We're now in the 'heat' of our summer season, but the recent heatwave in the UK hasn't slowed us down, and we're still powering on through the rising temperatures!

Our product development and rebranding exercise is still ongoing - Last month we announced the rebranding of two cleaning products, "All Purpose Maintenance RIB Cleaner" & "Heavy Duty Inflatable Boat Cleaner". We believe this rebranding reflects the product use & performance much better for the end user.

The company has recently invested in a new cutting machine which has enabled us to launch a new circle fabric patch size which is available in a slim-line retail wallet containing 3 patches.

Over the past few months, our marketing team have been working hard compiling Media Libraries containing updated Product Images, Instructional Videos, User Guides, Logos and Technical Information on our products launched this year. Our aim is to help our global distributors standardise our product range across their online platforms whilst improving Polymarine's visibility and brand consistency across all the regions we service.

We're pleased to announce that Polymarine will be exhibiting at METSTRADE exhibition in Amsterdam in November. As we approach our 50th anniversary, METS will be the perfect opportunity to celebrate this milestone with our customers, strengthen relationships and showcase our latest developments.

Thank you for your continued support and engagement with Polymarine. Stay tuned for more updates and we look forward to connecting with you in person at METSTRADE in November!
